## Research

For the information of house-  
wives who wish accurate informa-  
tion on relative costs in planning  
nutritional and at the same time  
delicious meals, the food adminis-  
tration has issued a table showing  
comparative cost and food value  
of fifty foods.

Each is taken as the standard  
for comparison, and the most per-  
cent and the relative cost per  
hundred calories of the other ma-  
terials is shown. The prices given  
are averages of those in 25 places  
throughout the country on August  
1. The table shows that 12 arti-  
cles are cheaper than bread on the  
basis of calories obtained for the  
money, two are of equal value, and  
higher. Corn meal, notwith-  
standing its present high prices,  
tends to give the most food  
for the money. Broiler  
chickens stand at the foot of the

The experts of the food adminis-  
tration think that an intelligent  
use of this table will help house-  
wives. They point out that it  
is impossible for a family  
to keep in health if it were fed  
solely on the foods in the low-  
est part of the table. Their ad-  
vice is that the housewife continue  
to prepare the usual meal of va-  
riety, and utilize this table as  
a guide in making combinations  
which will save money and at the  
same time be nutritious. For in-  
stance, canned tomatoes, compared  
with bread, are a very expensive  
item. This should not lead to  
the substitution of tomatoes, but

## PLAN HIGHWAY FROM RED RIVER TO BORDER

### First Step Is to Organize Units of the Meridian Road in Texas.

SAN MARCOS, Tex., Sept. 8.—

With the making of a 365-day road  
between the different army posts  
in Texas, the question of military  
transportation is solved, and that's  
why, with the designation of the  
Meridian Road as State Highway  
No. 2, the Texas Highway Depart-  
ment is ready and anxious to aid  
in the campaign just launched to  
give the Meridian Road a hard  
surface from the Red River to the  
Rio Grande and the Gulf. The  
very first consideration is to get  
every unit of the Texas Meridian  
Road Association lined up, and  
started in the good work. It has  
been demonstrated so many times  
in the past that all that is needed  
to put this and like projects of  
state import "over" is to be thor-  
oughly organized.

Reports that have  
recently been issued  
by the Department of Agriculture  
show that the losses from  
the disease during the present  
year may exceed the maximum  
in any previous year.

Historic Texas Highways

Today, the Lone Star State is crisscrossed with a jumbled tangle of high-speed highways and byways. It was not always this way. In the late 1800s and into early 1900s, the traveler had only dirt, gravel, and occasionally paved roadways from which to choose. As automobiles became more popular, the demand for better and safer roads increased, leading to the Good Roads movement. This in turn led to the improvement and expansion of the roadway network across Texas and across the nation. The development of communities was closely linked to transportation, whether waterways, roadways, or railways. As auto travel increased in the 1920s and '30s, towns connected by roads prospered due to the ability to sell and trade goods, and by providing places for travelers to stop for food, lodging, and vehicle care.

A rich architectural legacy from this early time period still remains along these early roadways, including gas stations, motels and hotels, diners and cafes, auto dealerships and repair shops, parks, signage, bridges, and tourist attractions. To learn and see more about these resources, please explore our various highway

The screenshot shows the Texas Historical Commission website. The header includes the commission's logo and tagline, "TEXAS HISTORICAL COMMISSION real places telling real stories". A navigation bar lists: HOME, ABOUT US, PRESERVE, PROJECT REVIEW, NEWS & EVENTS, GET INVOLVED, LEARN, and EXPLORE TEXAS. The breadcrumb trail reads: Home > Preserve > Projects and Programs > Historic Texas Highways > Meridian Highway. The main content area is titled "Meridian Highway" and features a map of Texas with the highway route highlighted. The text describes the highway's history, from its early 1910s inception to its path across approximately 800 miles of Texas, passing through cities like Waco, Fort Worth, and San Antonio. It also mentions a two-year study by the Texas Historical Commission to document the highway's history. A sidebar on the right, titled "In This Section", lists links to various highway-related pages, including Bankhead Highway, Del Rio-Canadian Highway, East Texas Highway, Meridian Highway, Meridian Highway History, Meridian Highway FAQs, THC Release Form, North Texas Highway, Old Spanish Trail, Route 66, and Sidebar Interests.

### Meridian Highway

The Meridian Highway historically has been the major north-south named highway in Texas since the early 1910s. As originally conceived by the International Meridian Association in 1911, it stretched from Canada to Mexico, extending through the nation's mid-section and the expansive Great Plains region. Its path cross approximately 800 miles of Texas, passing through Burkburnett, Wichita Falls, Fort Worth, Cleburne, Waco, Taylor, Georgetown, Austin, New Braunfels, San Antonio, Cotulla, Laredo, Bryan, Hempstead, Houston, and Galveston, among other communities, and roughly followed IH-35W with a major lateral from Waco to Galveston following SH6/US 290.

The Texas Historical Commission is undertaking a two-year study to document the history of the Meridian Highway. The project will result in a written history of the Texas section of the Meridian Highway and a survey of the Texas Meridian route, including associated historic resources: auto repair garages, gas stations, diners, tourist camps, auto courts, motels, road markers, paving, and traffic signs. This effort is funded by the Texas Legislature and the Texas Department of Transportation (TxDOT)

### Activities along the Meridian Highway

Did you, your family, or friends travel on the Meridian Highway? If so, when, how often and for what reason?

Did new businesses open when the highway was built? If so, what kind of businesses were they and when were they in use?

Did the highway pass through the downtown area? If so, did any events take place on the downtown section of the highway, and what were they...fairs, parades, community celebrations?

What impact did paving the highway have on local business and movement from town to town? Did tourism increase?

What happened to businesses in your community when the interstate was built?

### Buildings and Structures along the Meridian Highway

Do you remember any buildings or places that highway travelers used, such as tourist camps, tourist courts, motels, gas stations, repair garages? If so, what and where were they, and when were they used? Do they still exist?

Do you remember any old bridges, parks or rest areas built along or near the highway? If so, where were they and do they still exist? When were they built and when did people stop using them?

Are there any old sections of road that are no longer used? If so, where are they?

### Historical Information

Do you have any photographs, postcards or written materials showing places on or near the Bankhead? Are you willing to have them scanned or photographed for use in this project?

Do you know anyone else who might have materials to share? If so, please provide contact information.

☐ I have photos, post cards or other materials to share with the project but did not bring them to this meeting. The survey crew will contact you to arrange an opportunity for you to share your materials. Please complete the section at the top of the Questionnaire so you can be contacted.

### Project Feedback

Please record any comments you have on this meeting, or the project.

Thank you for your participation.
